

MINUTES OF THE BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES, STATE OF CALIFORNIA

Sachi A. Hamai, Executive Officer-
Clerk of the Board of Supervisors
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

At its meeting held January 27, 2009, the Board took the following action:

35-C

The following item was called up for consideration:

Supervisor Antonovich's recommendation to direct the Chief Executive Officer in conjunction with the Director of Parks and Recreation to establish a committee within 30 days, composed of trail users, equestrians and property-owners, to study the trail corridors in and around the northwest San Fernando Valley, and to update the County's Master Plan of Riding and Hiking Trails for the region.

The following statement was entered into the record for Supervisor Antonovich:

"The development of new homes in and around the northwest portion of the San Fernando Valley is raising concerns about preserving trails used by equestrians and hikers. Some of these trails are dedicated trails created and maintained by various public agencies, such as the County of Los Angeles, the City of Los Angeles and the Santa Monica Mountains Conservancy. Other trails are on private properties but have nevertheless been historically utilized by the public.

"The County's dedicated trails are identified in the Master Plan of Riding and Hiking Trails, which was adopted by the Board of Supervisors as an amendment to the County's General Plan. Based upon this Plan, the County's Department of Parks and Recreation is authorized to condition developers to provide easements, dedications and improvements as a component of the County's subdivision review process.

(Continued on Page 2)

35-C (Continued)

“The public is concerned that long-standing trails will be eliminated due to new development, creating ‘gaps’ or otherwise preventing connections among existing trail networks. It is therefore important to update a portion of the Los Angeles County Master Plan of Riding and Hiking Trails for the northwest San Fernando Valley community. The Los Angeles County Department of Parks and Recreation needs to work with local community groups, equestrians and property-owners to plot the location of all dedicated County trails and historic trails on a map. The Department and the community should also work to promote the dedication, construction and maintenance of a regional trails system for hiking and equestrian use, one that inter-connects all of the public trails maintained by various public agencies.”

Therefore, on motion of Supervisor Antonovich, seconded by Supervisor Knabe, unanimously carried, the Chief Executive Officer in conjunction with the Director of Parks and Recreation, was directed to establish a committee within 30 days, composed of trail users, equestrians and property-owners to study the trail corridors in and around the northwest San Fernando Valley, and to update the County’s Plan of multiuse trails for the region.
